CiOX®

A DATAVANT Company

1 **Facility Coding**
Timely and Accurate Coding for all services areas.

2 **Provider Coding**
Professional Fee Coding represents a holistic picture of the care provided by the Provider.

3 **Coding Audits**
Ongoing coding audits to ensure compliance and continuous education for Coders.

4 **Clinical Documentation and Provider Education**
Organization focus. Complete, concise documentation specificity representing the true clinical picture of patient care. Provider education that focuses on real-world scenarios, disease processes, and body systems.

5 **Denials**
Timely submission of records. Current inventory management with a strategic approach to prevention. Use predictive data to combat future issues.

Step into a world of *streamlined healthcare solutions with Ciox Health*. Our unified suite offers customizable technology and managed services that cater to your unique organizational needs. Seamlessly share data with authorized entities, experience precise coding, prompt reimbursements, and proactive denials management.

Medical Coding

Assure timely, accurate coding with Facility and Profee coding solutions delivered by credentialed coders with quality assurance by expert coding auditors and educators.

Denials Management

Enhance revenue integrity with a customized, multi-discipline approach to build a program that prevents avoidable denials and efficiently manages current ones.

Coder Quality Review & Coding Audits

Ciox supports HIM/RC leaders nationwide, across every medical vertical with the highest level of Coder Quality Review & Coding Audits that ensure the most accurate level of clinical coding and deliver maximum revenue while minimizing potential areas of risk including ICD-10, CPT-4, HCPCS/CPT, HCC, E/M, DRG, disposition, mortality and ancillary review.

Clinical Documentation Integrity (CDI)

Ciox's CDI team includes certified Physicians, Nurse Practitioners, CDI Nurses, and Coding Auditors that identify and target areas with opportunities for improvement in documentation and code specificity to support documentation integrity. We provide a comprehensive view of the medical record as well as education to improve compliance, clinical validation and proper payment while maximizing technology to lower risk and capture risk adjustment.

Additional HIM/RC Services

- ACO Reviews
- Education
- Medical Billing
- EMR Preload
- Patent Identity
- Clinical Abstraction
- Master Patient Index
- esMD
