Ciox®
A DATAVANT Company

Record Retrieval Redefined.

Request Manager:

- Reduces manual labor, enhances your staff's experience, and mitigates the risk of human errors.
- Facilitates digital fulfillment of up to 85% of eligible requests when utilizing an eligible EHR.
- Is a comprehensive workflow tool complete with capabilities for sorting, exporting, and fulfilling requests.
- Aids in minimizing the influx of calls and faxes your organization deals with.

Why Choose Ciox?

Ciox has been a trusted partner to providers for more than 40 years. Ciox helps customers **connect, control and comply** in solving last mile challenges for record retrieval. Ciox's cloud environment is SOC 2 and HITRUST certified.

Are you overwhelmed with audit-related requests from Ciox?

Our technology can help!

Requests are organized into a single, digital queue

Request Manager consolidates all Ciox-Managed audit requests into a unified queue, providing your staff with a single source of information.

No need to manage thousands of credentials

Request Manager enables authorized staff to access the platform using a single set of login credentials. This eliminates the need to manage numerous documents or faxes with separate logins.

Implementing Request Manager is easy!
